

Electrical Reticulation Designer

Lectel are design leaders in the electrical, lighting and telecommunications industries, and a preferred service provider for a number of electrical utilities, telecommunication suppliers, councils and major developers.

An opportunity currently exists for an experienced, self-motivated, ***Electrical Reticulation Designer***. The role is for a technical specialist whose principle role is to design however will also oversee the delivery of projects and supervise a design team.

To secure an interview you will ideally have the following skills and attributes:

- ▶ Expert knowledge of URD standards & Council requirements
- ▶ Significant expertise in design of Energex and/or Ergon overhead and underground network up to 11kV including Street Lighting
- ▶ Ability to meet deadlines & oversee a team
- ▶ Excellent communication and leadership skills
- ▶ Customer and team focused
- ▶ Appropriate industry accreditations
- ▶ AutoCAD, MS Word, Outlook and Excel literacy
- ▶ Must hold a current Drivers Licence

The primary duties of this role are:

- ▶ Design of own projects – produce ‘red line’ design layouts for drafting by others and/or design drafting
- ▶ Manage the flow of design activities and monitor the quality of design
- ▶ Supervise and mentor staff
- ▶ Prepare proposals & review and approve designs
- ▶ Key client liaison for technical queries
- ▶ Problem solve design & construction issues as they arise
- ▶ Liaise with Energex and Ergon & negotiate with Councils & Developers

Applicants possessing a background with Ergon and /or Energex, URD and those with an Associate Diploma in Electrical Engineering or equivalent trade experience would have a distinct advantage.

If you are interested in applying for this challenging and rewarding position, please email your covering letter and resume to the address below.
